Summary

I am Taiwo Onileowo, a result-driven Frontend Developer with years of experience in creating visually appealing, interactive and engaging front-end applications. Proficient in frontend technologies including HTML5, CSS3, and JavaScript, with expertise in modern frameworks such as React.js, Next.js and Content Management Systems like WordPress, Sanity alongside other libraries. I love using React.

I am skilled in translating design mockups into interactive web interfaces, optimizing performance, and ensuring cross-browser compatibility. Also, proficient at collaborating with cross-functional teams to complete projects and accomplish tasks. I have a proven track record of continuous learning, embracing new technologies, and fostering a collaborative team environment to drive project success. I most importantly have an awesome personality.

List of some of my completed projects is in my portfolio below

Experience

Front End Developer

SparkSites Studios • Nigeria

01/2024 - Present

Play a major role in the development and delivery of frontend solutions that meet the needs of our clients and contribute to the success of our projects within the project deadline.

My Key Responsibilities:

1. **Frontend Development:** I am responsible for developing and implementing frontend solutions for our projects, translating design mockups and wireframes into responsive and visually appealing web pages.
2. **Code Implementation:** I Write, clean, efficient and maintainable code using ReactJs, NextJs, TailwindCSS, and other libraries and frameworks, ensuring compatibility across different browsers and devices.
3. **Component Development:** I Create reusable UI components and libraries, maintain code efficiency and promote scalability across projects.
4. **Continuous Learning and Adaptability:** I Stay updated in latest frontend technologies, tools and best practices, improve my skills and adapt to changing project requirements.

React Developer Intern

Intern Career • Manglore, Karnataka

01/2024 - 02/2024

- **React Component Library:** Got to learn Storybook, a react component library. I then conceptualized, developed, and deployed a React component library using Storybook and NPM packages, showcasing proficiency in React.js, Storybook, Jest testing, and NPM package management.
- **Ecommerce Website Development:** Built an ecommerce website with React.js, Next.js, Sanity, Stripe, and other frontend technologies. Overcame challenges, fixed bugs, and implemented features for a seamless user experience.
- **Continuous Learning:** Embraced the challenges given to me, learned from my errors, and actively sought opportunities to expand skill set. Engaged in self-directed learning, leveraging YouTube tutorials, documentation, and AI

Skills

Html5, CSS, JavaScript, ReactJS, NextJs, TailWind CSS, WordPress, Sanity, Bootstrap, GIT, GitHub
